Hey, let's talk about your dreams!

Start project press ENTER

Published: just now

Fully approvable Minimal House

a proper house on a small footprint

Proper **insulation** for summer and winter due to **EnEV** compliant construction

All requirements concerning building regulation, **fire protection laws** and material requisitions met

Building permits generate inhouse with a fast standardized process

Quality and Speed

convenience always wins

Housing as a standardised product manufactured within an industrial level of prefabrication of 100%

Delivery times from order to move-in possible in under **4 weeks**

Duration of construction site at location: 6-8 hours

High quality standards due to assembly under **perfect conditions** in the housing-factory
